

# PSHE Education

## STOKE-ON-TRENT & STAFFORDSHIRE

### WHO ARE WE?

Funded by Staffordshire Police, Fire & Rescue and Crime Commissioner's Office we provide support, advice and guidance to all education settings for 5-18 year olds across Stoke-on-Trent and Staffordshire

Our aim is to support the development and delivery of age-appropriate, quality, consistent Personal, Social, Health & Economic education that gives children and young people the knowledge, skills and attributes required to make safer, healthier decisions to thrive.

### PSHE DIGEST

Our monthly newsletter brings together the latest research to ensure local PSHE education is evidence-led, with updates from national and local partners to enable effective signposting and resources to support upcoming key awareness dates. The PSHE Digest provides a round-up to ensure education settings can stay up-to-date with developments.

The PSHE Digest is published on the first termly-Friday of each month.

To join the mailing list please email us.

### BEST PRACTICE

We create guidance documents based on the latest research and evidence to support local education providers to embed best practice principles of PSHE development and delivery in their own settings.

We have created a local quality framework, based on research and evidence in developing and delivering effective PSHE.

The service hosts a half-termly PSHE Leads Network meeting. Book your place on our Eventbrite page.

The service also offers specific support including observations of lessons, pupil voice and review. Contact your local coordinator for more information.

### IMPROVING KNOWLEDGE

Research consistently shows that children and young people engage and learn more effectively when PSHE sessions are delivered by trained, confident facilitators.

To enable practitioners to become more confident we have created our localised "... & PSHE" packs which show the learning outcomes related to the topic and the knowledge required to achieve them.

We also invite subject experts to share their expertise and develop links between education and specialist services in our Practice Development Sessions.

### RESOURCES

We appreciate that finding resources can be time consuming and with so much in the market it can be difficult to sort the wheat from the chaff.

We have a specific area on our website (sign-up required) that hosts resources that have been quality assured against the local framework.

This includes nationally sourced and locally produced resources.
